

**Will your home be flooded?
Is the basement excessively
wet at times?**

**Is that wet area a wetland?
Should I build near a wetland?**

**How will that steep slope on the
property impact construction?**

**What should I do
about that septic
gray water?**

Is your well water tainted with oil?

**Are up gradient contaminant sources
nearby that might contaminate my well?**

**Are those "minor" foundation cracks telltale
signs that the building will slide down slope?**

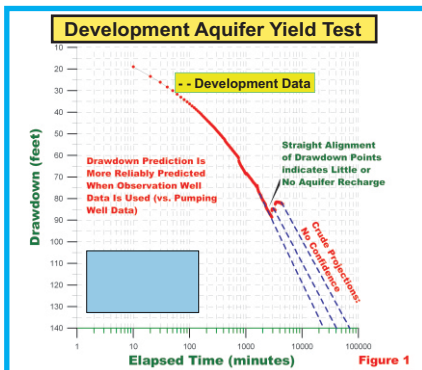

**Should I buy streamside land that may
wash away in a major flood? Am I likely
to lose my investment?**

Thinking Of Purchasing Vacant Or Developed Property?

**Is this land suited to a pond?
Where is the best place to
build a pond?**

**Did my contractor do
something wrong? Do
I need expert support?**

**There are beautiful
orchards and farmland
nearby. Should I worry
about water quality?**

**Is there adequate water
for my purposes? Is
the quality good? Should
I test the water? For what?
Where should I drill a well?**

**Is the soil suitable
for an in-ground
septic system?**

**Is purchasing
this property a
wise investment?**

**Is that a sinkhole? Will
my building collapse or
subside?**
